EVENING EDITION.

ATLANTA, GEORGIA, SEPTEMBER 3.

Night Scenes in the Bible.

This book has been engaging the attention of the people more than any other work published lately. Bound in a manner to make a handsome parlor ornament, illustrating themes of surpassing interest and striking attraction, adorned with beautiful steel engravings, and written in a style at once picturesque and thoughtful, it is meeting with a popularity, and having a sale, really wonderful.

The author, the Rev. Daniel March, is a writer of vigorous ability, scholarly polish and luxuriant imagination. With material of exceeding richness, he has woven some very exquisite fabrics. Some of his pictures are very fine.

The idea of the book is a unique one. The influence of night upon the mind, is most potent. Its mysteries, its obscurity, its wierd potency, its fantastic stimulus to the erratic powers of the imagination, its awe and superstition, make its realms full of fearful wonder, and lift its occurrences above the prosaic realities of sunlight into the dreamy, dim, apprehensive mysticism of the supernatural.

The conception of working up into a series of living silhouettes the impressive night incidents of Biblical history was novel and striking. It has been well carried out, and the moral of these scenes is graphically conveyed.

Among the finest sketches are, "Elijah's Night in the Desert;" the "Night Feast of Belshazzer;" "A Night with Jesus in Jerusalem;" "The Night of Temptation;" "The Night of Agony;" "Israel's Last Night in Egypt."

We wish we had space to give some extracts from this beautiful work. It is published only by subscription and sold by agents, and therefore can not be obtained from the book-stores. Mr. Eton, of Savannah, is now in Atlanta, as the agent for its sale.

We can cheerfully and urgently advise our readers to purchase the volume. The six dollars spent in buying the finest bound edition will be richly repaid.

OUR JOB WORK.—THE CONSTITUTION Job Office, with its new and varied material, its new presses, new type and many kinds of paper and colored inks, is prepared to do work as cheap, as good, as stylish, and as quick as any other office in the South.

We are willing to compare specimens with anybody.

Crops in Harris county good. The Brunswick and Albany Railroad is rapidly progressing. Over 500 men at work—hundreds being added each week—*Brunswick Appeal.*

Hot and dry. Some rain. Crops suffering. Cotton picking progressing. So hot in Washington county that dead trees have taken fire at the top from the heat of the sun. Postmaster Turner is running heavy negro revivals in Eatonton. He says nothing of greenbacks or Maria.—*Eatonton Press.*

Rain reviving parched crops. Twenty-one new bales sold. At the Baldwin Superior Court, juries are reducing old debts according to the facts—in one case to 12½ cents on the dollar. A part of the Federal soldiers have gone to Union Point—some remain in Wilkes, and two companies in Warren. A man named Hobbs, with papers from General Terry to a Lieut. He was afterwards seen caucussing with negroes in the suburbs of Sparta.—*Warrenton Clipper.*

Savannah received and exported for the year closed, 345,531 bales of cotton, or 150,897 less than last year. In Brooks county no top cotton crop will be made. Rust, drought and boll worm have done bad work. Not so much cotton as in 1868. The foot race of the hotel waiters came off. Screven House won. The Marshall House was distanced, and has to treat. A little son of the Rev. C. B. King was dangerously hurt by falling through a new building going up.—*Savannah Republican.*

The Radical party held a caucus yesterday, and resolved to spend their bottom dollar at the coming election. The sight of a dollar would make the majority of them sick.—*Savannah News.*

THE PRESS EXCURSION.

The Following are the Proceedings of the Excursionists at Pond's Hotel, Wednesday.

We are compelled, by pressure upon our space, to abbreviate and condense the report of the proceedings. Neither the editors nor proprietors of this paper were present:

Col. Hulbert arose, and alluding to the fact that for the first time the Press were together to consult on the practical interests of the State; said that they had seen for themselves Georgia's resources, and now they must awaken the people to the importance of their development. He concluded by toasting the "Press of Georgia"—May it sustain all efforts to develope the interests of the Empire State of the South.

Mr. Clisby then made a speech of sentiment. Among other things he used the following language:

Our Governor, in compliment to us, has, as it were, become one of ourselves. At very great personal inconvenience, he has accompanied us on our trip. When we left he remarked to me that he knew not how long he could continue with us, but he was reluctant to leave us as long as he could contribute to the enjoyment of the occasion. Our intercourse during that time has been of the most agreeable character.

He spoke about the power of the Press, and the necessity of harmony; and, with words of adieu, closed.

Col. Lester called on Mr Fleming, of South Carolina, of the Charleston Courier, who responded as follows:

Gentlemen: While I regret that you did not call upon some one more worthy among you, yet I cannot do otherwise than respond to the hearty invitation which you have given to myself as a representative of the South Carolina Press. Of that State, I have to say that though she is perhaps less to day than she ever has been in its history, for she is now in humiliation, yet she is far dearer to me at this time than she was in her most glorious epoch.

A word or two, Mr. President, of this expedition. I apprehend when Mr. Hulbert harnessed up his iron horse, and invited the Press of Georgia, and the Charleston Courier, which I have had the honor to represent in the expedition, he invited the people of the State of Georgia, and of South Carolina to explore this great State, and examine the wealth which lies imbedded in her hills—for what, after all, is the Press but the exponent of the people; and how is it possible for Col. Hulbert to bring more advantageously before the minds of his people, and of ours the great mineral and other resources of this section, than by the excursion from which we have to-day returned. Upon that excursion the Commonwealth of Georgia has been well represented. We have had the Executive Department, the Legislative Department, and the Judicial Department all pretty fully represented, and last, but not least, you have had the great—the all potential Press. [Applause.] The great responsibility after all rests upon them. Here then rests the joy and the fatigues of the expedition. It has been, nevertheless, a memorable trip, and will be so regarded for years to come. To my mind, it marks a new era in the history of Georgia, and in the history of the Southern States. [Applause.] Volumes, sir, might be written, and doubtless volumes will be, written upon the experiences of the past eight days in Georgia, and they will reach the people of more northern climes, and show them that though conquered as we are believed to be, not only have we iron in our hills, but iron yet in our hearts. [Applause.]

Mr. Weston, of the Dawson Journal, offered the following resolution:

Resolved, That a committee of the Georgia Press be appointed to correspond with Col. Mark A. Cooper, Cartersville; Rev. C W. Howard, Kingston; Gen. Wm. Philips, Marietta; Hon. W. P. Price. Dahlonega; Chancellor Lipscomb, Athens; Col. Seaborn Jones. Van Wert; Messrs. Noble & Sons, Rome, and such others as the committee may think proper for information upon the mineral resources of Georgia, and compile and publish such information as they may obtain.

Unanimously adopted.

Mr. Clisby, Chairman—The Chair will appoint Mr. Weston, of the Dawson Journal, Mr. Willingham, of the LaGrange Reporter, and Mr. Atkinson, of the Athens Banner.

The committee appointed by the President of the Press Association, representing the Association and invited guests, beg leave to submit the following:

Resolved, That having accepted the invitation of Col. E. Hulbert, Superintendent of the Western and Atlantic Railroad, and having travelled with him as his guests, we recognize the excursion as totally disconnected with politics and political parties; that in Col. Hulbert we recognize a man of deep thought and thorough investigation, of indefatigable energy, and steady purpose to advance the interests of the State, by a successful administration of the great public work over which he presides, by the aid of his deep sagacity and forethought, as to railroad extensions, the judicious graduation of freight tariff, and by the use of all means in his power to develope the vast resources of the country. Hence we approve, heartily of his Excursion, from which we have just returned, its aims and purposes, of the skill shown in planning, and the polite, and courteous and successful manner in which he has conducted it throughout.

Resolved, That we are pleased to learn that these views are heartily concurred in and approved by his Excellency, Governor Bullock and members of the Legislature and other State officials who have accompanied the excursion; that with pleasure we recognize the hospitality of the city of Atlanta, represented by her accomplished and genial Mayor, Col. Hulsey, and return thanks to him and the citizens of the Gate City; to Messrs. Kimball for the use of their magnificent sleeping cars, which have rendered our travel a luxury, instead of labor; to the authorities of the city of Chattanooga, for their hospitalities during our visit to Tennessee; and to Mayor Z. B. Hargrove and other citizens of Rome, and through him the city for the generous and continued hospitality and courtesies showered upon us, and we tender to them our heartfelt thanks and best wishes for future prosperity. In Capt. Barney, of the Selma, Rome and Dalton Railroad, we found an accomplished gentleman and indefatigable Superintendent of a splendid road; and we tender thanks for the transit over his road, his courteous attentions, and profuse hospitality in entertaining our party during our whole stay upon his road.

Resolved, That the thanks of the Superintendent of the Western and Atlantic Railroad and the Press Association and invited guests traveling with this excursion, are due, and hereby tendered, to Col. Wade S. Cothran, President of the Rome Railroad Company, and the Superintendent J. M Selkirk, for the free passage of our train and other accommodations extended to us; to Col. Wade S. Cothran, President of the Coosa River Steamboat Company, and Capt. J. M. Elliott, both of whom are pioneers in this enterprise and have been favorably known to the public in their present positions for the last twenty years, for our delightful excursion down the Coosa in the steamer Etowah, and for their generous hospitality and polite attention; to Col. Wade S. Cothran. President, and L. L. Thompson, Superintendent of the Cornwall Iron Works, for the superb barbecue served at their works, and for their polite attention and courtesies.

That our thanks are likewise due and tendered to Mr. Lowe, of the Chattanooga Rolling Mills, and Capt. Pratt, of the Etna Coal Mines; to Messrs. Noble, of the Rome Works, and Mr. Wells, of the Shelby Mines, for courtesies extended, and especially for valuable information imparted in reference to the several important enterprises in which they are respectively engaged.

That we also tender thanks to J. W. Holtzclaw. conductor; John Ellsworth, engineer; James Cook and P. H. Pate, conductors of sleeping cars, Robt. P. Bush, baggage master; L. A. Pond and Wm. Knowles, of the refreshment saloons, and to the whole corps of servants, for the courteous and faithful discharge of duty.

F. S. FITCH,
J. C. WOOTEN,
H. FIELDER.
Committee.

Mr. Fitch moved that the report be published in all the Georgia papers, and the Charleston Courier. Unanimously carried.

General Wright—I move to strike out all but the first resolution.

Judge Harrell—I move, Mr. Chairman, that it be adopted as a whole.

The Chair—Has the first motion been seconded. Motion has been made and seconded that the report be adopted as a whole.

Gen Wright—A motion to strike out is in order, sir.

The Chair—Has it been seconded?

A Voice—It has not been seconded

The Chair—The motion then is on the adoption of the report.

The motion having been put, was voted upon affirmatively by all except General Wright, who voted "No!"

Mr. Hancock—I now move you, sir, that this Convention adjourn *sine die.*

Senator Nunnally—I do not know whether I have or have not any right to speak at this meeting but if I have, I move that the gentleman who last spoke, be granted leave of absence for the balance of the evening. [Laughter.]

Mr. Hancock—Mr. Chairman, I resume my motion.

Mr. Moore—I second it.

Voted down.

Mr. Moore—Mr. Chairman, what business is now before the house?

Mr. Weston—As one of the excursion party, I desire to offer a resolution to extend the thanks of this association to Col. Cothran, who is President of three different corporations, the dividends of one or two of which, as I learn, have been *only* 60 per cent. within the past year. [Laughter.] I think that he deserves the sympathy of this Excursion.

Carried.

Mr. Fitch, of the Griffin Star—Seeing that we are about to part, I desire to offer, as the last proposition, though by no means the least, a resolution to the effect that we tender the thanks of the Press Association, and of the entire Excursion, to the Messrs. Pond, of the National Hotel of this city, who, I understand, have provided this dinner for us at their own expense. [Great applause.]

On being put to a vote, the resolution was unanimously adopted.

Upon motion of Mr. Medlock, the meeting adjourned amid cheers.

Crops, Politics, Etc.

PENDLETON, S. C., Aug. 30, 1869.

Editor Constitution: I arrived here on Friday, having come through the country from Atlanta, in a buggy. I will give you a short letter on the corn and cotton crops.

Corn and cotton are both decidedly better on this side of the Chattahoochie river than on the other side, though the farmers are complaining from there here, about bad crops. Cotton is looking pretty now, but is failing very fast, as the drought is causing it to drop the forms. Farmers here think that it is the worst year since 1845. Corn was selling at two dollars a bushel in Franklin county, as I came through. As a general thing the negroes are working very well, though I see a few loafing about this place doing nothing. Living by what they can steal, I suppose.

Pendleton is at a stand still at present though it is thought it will improve if the Air-Line road passes through it. There are five large dry goods stores that do a pretty good business, besides some smaller ones. The Blue Ridge railroad passes through the village.

Nothing being said about politics, the people have quit it and gone to work.

Yours, etc., F. P. B.

MARIETTA, GA., Sept. 1, 1869.

Editor Constitution: I have not received the last two (2) numbers of the always welcome "CONSTITUTION." I would like to know where the fault lies. I think you would please your subscribers here, by making an arrangement with Express Co., to bring your *morning* edition to us, instead of sending the evening edition by mail—for our Rev'd Post-master refuses to open the mail at night, although he has ample time before 9 o'clock, and does not open office till 8 o'clock in the morning, so that the good citizens wait *only twelve hours* after arrival of mail before they can obtain their letters and papers.

We assure our subscribers that the papers are started all right from this office. If our subscribers wish us to send them the morning paper we will do so with pleasure. Notify us if it is desired.

DECISIONS OF THE SUPREME COURT. Pamphlet copies of the late decisions of the Supreme Court can be had at our counter, for seventy-five cents.

GENUINE ABOLITIONISM.—Our correspondents have been telling some rather tough anecdotes of Judge Tappan, the old Democratic war horse of Ohio. His brothers, Arthur and Lewis, were strict Puritans and great Abolitionists, and he was neither, though he did not justify, but despised rather than opposed slavery. While holding court once, a couple of slaveholding lawyers from Kentucky were in attendance, and during the intermission, the subject of abolition came up, and the course of the New York Tappan was being rather sharply criticised, when the Judge's opinion thereon was invoked by one of the Kentuckians: "My brothers," said Tappan, "are acting like fools. They think they are going to preach and pray slavery out of the country, but I tell them the only way to get rid of it is to put knives in the hands of the d—d niggers, and push 'em up to the throats of the slaveholders." The conversation went no further on that topic.—*N. Y. Sun.*

MODERN COURTING.

In olden time, sweet Cupid went
His rosy way cavorting,
No "breach" his tiny bow unbent;
But now maids weigh love cent per cent.,
In court they do the "courting."

PRETTY WOMEN.—A comparatively few Ladies monopolize the Beauty as well as the attention of Society. This ought not to be so, but it is; and will be while men are foolish and single out pretty faces for companions.

This can all be changed by using Hagan's Magnolia Balm, which gives the Bloom of Youth and a refined, sparkling Beauty to the Complexion, pleasing, powerful and naturnl.

No Lady need complain of a red, tanned, freckled, or rustic Complexion, who will invest 75 cents in Hagan's Magnolia Balm. Its effects are truly wonderful.

(Firm of Richards & Brother, Augusta, Ga.)

Dr. J. M. Foster—Having been a sufferer from a serious malady in the head for several years and failing to obtain any relief for it through the usual means employed by the general practitioner of medicine, whose efforts it had so often baffled, I placed myself under your admirable system of treatment through the advice of my physician (in whose judgment I reposed great confidence) I have been following your treatment but *ten days* only, and the relief has been so substantial—the head so much improved and the general change so marked that I tender you this testimonial in the hopes that you will soon make a second visit to Augusta, and that others may have the advantage of your successful practice and skill. Hoping you may decide upon an early return, I remain, yours truly,

Official Journal of the City.

BY W. A. HEMPHILL & CO.

MORNING EDITION.

ATLANTA, GEORGIA, SEPTEMBER 3.

☞ There are about five million Jews in the world.

British India.

The import trade of British India has leaped from $31,000,000, to $226,000,000, on in 1866; the export trade from $41,000,000 to $251,000,000. This is almost equal to the United States. The railroads in India have cost $350,000,000.

Congressmen.

There is much uncertainty in regard to the status of the State as to its Representatives in Congress—whether the last members hold over or not—whether the election should be held this fall, etc. Men are of different opinions. The time is getting close at hand for action of some sort.

We suggest that the Democratic Congressional Executive Committee meet and look into the matter.

The Tribune Slander Mill.

Old Horace's slander machine is at work against Georgia again. It breaks out in spots, like the measles, the spots all of a kind, but differing in size, and the amount of virus in the pustules. The following will surprise, if the capacity for surprise isn't sick from incessant work:

WASHINGTON, Aug. 29, 1869.—The labor movement in Georgia, mentioned in these dispatches, some days since, appears more extensive than was at first understood. It includes large bodies of the plantation hands, especially in the middle and Southern portions of the State, where both the outrages of the Ku-Klux, and conduct of the employers in cheating the laborers, have become very oppressive. The "truck" system is generally used, and hands are paid in orders on the planter's store. It is stated that in several of the Southwestern counties the laborers are determined to leave in bodies if the present policy is not changed.—*Dispatch to Tribune.*

Gen. Cleburne's Sword.

We have just had the pleasure of seeing and handling the sword of the brave Irish-Confederate, Pat Cleburne. We meant to put it General, but some how the pen runs into the simple untitled name, plain, sturdy, truthful, Pat Cleburne. He needs no rank to give him glory. He began as Pat Cleburne, he rose as Pat Cleburne, his sturdy fighters knew him as Pat Cleburne, the army proudly talked of him as Pat Cleburne, and when he fell in a bloody field like the grand hero that he was, it was glorious Pat Cleburne that illustrated the gory altar of Franklin, and drew tears from a nation of mourners.

The sight of the relic touches us deeply. It brought to mind its manly owner, and the fiery days of the Revolution. It is in the custody of Miss Gay, of Decatur, that noble lady, who has so identified herself with the sacred duty of care to the bones of our dead. It was placed in her charge by Mr. John Keeley, of this place.

It is a very handsome weapon, with a finely-tempered, flashing blade, in a handsomely embossed and carved scabbard, and strangely enough it bears as the name and place of its makers, "H. Marshall & Co., of Atlanta, Ga."

The scabbard has at the top, on one side, a carved medallion of Mr. Davis in profile, and on the other side the harp and shamrock of Ireland twined together.

On the first ring below the shamrock, midway down the scabbard, are the words:

"Maj. Gen. P. R. Cleburne.
Presented by his old Regiment,
15th Arkansas."

Below is a carved Major General's insignia—a wreath with three stars, the middle one the largest, and underneath the letters "C. S.," representing those ill-fated but historic words—Confederate States.

Altogether it is a most interesting memento, and we believe our readers will enter into the fond reverence with which we regard and speak of it.

The Chinese Treaty.

There seems to have been much unusual befuddlement about the ratification of the Chinese treaty, negotiated by Burlinghame. J. Ross Browne, the late Minister to China is supposed to be discreditably mixed np in it. He seems to have made himself popular with the Pig-tails, and also to have been opposed to the treaty, probably through jealousy to Burlinghame's Celestial promotion, and he has even written letters — that thing that has broken down so many men: Bob Toombs is said to be the father of the saying, "Oh, that mine adversary would *writ* a letter"—doing damage to the negotiations, as well as subsequently to his own standing.

A few days back the news came by telegraph that the Chinese Government had rejected the treaty. At the time grave doubts were expressed of its truth. Grant and his advisers, and the press and everybody in general, were much nonplussed about it. The latest news, and reliable, is that the reported rejection is untrue, and the ratification of the treaty is only deferred until the Embassy returns. So that all the cackling ove the tremendous results of the aforesaid sensational rejection is premature.

In the meantime there is much lively rivalry for J. Ross Browne's good, fat place, as Minister Plenipotentiary and Envoy Extraordinary, and whatever else sesquipedalian it is, to China. Among others talked of are Gen. G. M. Dodge, of Iowa, a few particulars of whom we gave a day or two since; Gen. John A. Logan, of Illinois, one of whose Ku Klux documents as Grand Commander of the Grand Army of the Republic, we furnished to the readers of THE CONSTITUTION a week or two back; Hon. William B. Mann, of Philadelphia; Hon. J. D. Baldwin, editor of the Worcester Spy (this is our man for the office), and last, but not least, that young gentleman of precocious newspaper rascality, J. Russell Young, late managing editor of that virtuous journal, the New York Tribune, who managed himself out of even that Atlanta-Slander-Mill branch establishment, with a much decayed reputation.

The latter gentleman brings to the race the best Radical qualifications, as we now understand the entries. He is by far the biggest scamp, unless Logan can outweigh him in corruption, a thing quite likely. This will decide the result. The one that shows most dirt on his skirts will get it. Logan will have to be spry to beat Young.

CHINESE SERVANTS.

Their Superiority to Our Present Domestic Help.

The New York Journal of Commerce publishes a communication from, it says, a gentleman in very high standing in California, describing the Chinese exactly as they are, in every variety of service in that State. The editor adds: "He cannot be accused of desiring to revive the slave-trade, and has no political ends to serve, although he is a native of New England, one who served with distinguished credit in the late war, and is an ardent Republican."

Extracts from the letter.]

The flood tide of the Pacific scarce breaks upon our shore with a more copious fullness than this insurging tide of Chinese immigration. We have already among us from sixty to eighty thousand "Celestials." Every monthly steamer of the splendid Pacific Mail Steamship Company's line, brings over from Hong Kong from 1,000 to 1,200 recruits for this great army. They are not all humble laborers, though of course, most of them have no other capital than that of their hands. Still, there are not a few who come with means to engage in trades and manufactures; and, of late, in every public civic festival, especially on every commercial fete-day, the Chinese merchants of San Francisco have an honorable place among our men of large adventure and sagacious enterprise.

Perhaps the greatest and most pleasant revolution under this new style of "help," is in our domestic life. Almost without exception the families who have made the experiment of their services, have come to regard it as a great and blessed relief in the matter of housekeeping. I have had this service for many months in my home, and would not go back to the old system of Irish service for any price. The new servants are neat, cheerful, skillful, careful, and economical. They put on no airs. They stipulate for no privileges. They entertain no company. They look sharp after all the "odds and ends." They are satisfied with a very humble compensation for themselves. They make no complaint of "large washings," or "much conspiracy," or "sweeping days," or "irregularities in the family," such as many of us have heard for years. They take hold of the tasks of each day, no matter how heavy, with the same uncomplaining cheerfulness, and carry them through to their consummation with a quiet acquiescence which is most admirable. They never "answer back" to your instructions and exhortations, except with the simple, hearty "all right," which assures you that they comprehend and will do what is told them. The unaccountable leaks that in the old system have drained off so many family stores, bringing the tea box, the sugar barrel, the butter firkin and the lard pot low, with such marvelous celerity, seem strangely to have ceased. Any new service beyond their experience, when once shown, they achieve with an imitative dexterity that makes it a pleasure to teach them.

Of course, it is not quite easy at first to communicate with them. But they soon acquire English enough for all practical purposes. The technicalities of receiving when the door-bell rings, and rendering the responses of "not at home," or "walk in," are easily mastered by them. And to all the advantages now suggested, there is scarcely a "per contra" of discontent to be taken into the estimate.

Let them come, therefore, we say, no matter in what numbers. Let them spread all through the vast interior. Let them assume our kitchen regime. Let them occupy all fields of labor.

Somewhat slowly but surely they become Americanized. They are eager to learn our language. With that they learn our ideas, our social economies, our religion.

As citizens, these Chinese are orderly, quiet and well behaved. There is very little call for the interference of the police in their daily life. As laborers, however employed, they give universal and unqualified satisfaction. They are diligent at their toil, quick to learn at new tasks, faithful in obeying orders, nimble, patient and honest. The iron track bent over the Sierras is a national monument to their skill and persistence. In every harvest field, fruit orchard, and small garden, they are preferred by those who have tried them to all other "hands." I have left them by the week together, without any supervision, on my fruit ranches, to gather, box and send to market, without ever having occasion to find fault with their intelligence, industry or integrity. The vast and growing agricultural wealth on our valleys and in our plains is more and more to be wrought and harvested by their labor.

The Festivities at Gettysburg.

From the Philadelphia Age.]

The Press in an editorial says: "It is pitiable to see the Southern papers sneering at the Gettysburg re-union." No, no; that is a poor evasion. The whole Northern press, with scarcely an exception, have expressed disgust at the way in which the place and the occasion have been desecrated. Foremost in condemnation have been Radical papers like the New York Tribune and the Evening Bulletin, whose interest in Geary is not strong enough to repress their disgust at the exhibition he has made of himself; for he is the President of the Monument Association, and the getter up and director of the late affair for his own glorification. First, it was announced as part of the exhibition, that Lee and Meade were to be there, to cut pigeon wings and dance quadrilles over the dead of their respective commands. But when the statement that the Southern officers would attend there excited some murmurs among Radicals, an announcement was instantly made that the invitations to them were authorized by Geary; though the printed circular, with his name in it, declared that the action of the Board had been taken "unanimously." Having contrived to make himself the leading figure, he justly receives the fullest measure of discredit from the way in which the thing was managed. It is not the Southern papers, but the papers of the whole country, which condemn the execrable taste of the whole affair. Even the Press; the Press that volunteers in its editorial to make the poor little effort to charge the condemnation wholly to a Southern source; even the Press, on the same day, in its special telegram from the spot, made this admission of the truth:

Perhaps this whole Gettysburg affair is in bad taste, but the ball was simply a part of the programme, and is no more open to objection than any other portion of it. [*Press*, August 28.

☞ Reading matter on every page.

RETIRING FROM THE STAGE.—At last, Sothern has commenced to "retire from the stage." Just as we are beginning to have a tangible hope that after Forrest and McKean Buchanan, and the Florences and Barney Williams shall have played sixteen or seventeen more "farewells to the stage," and finally died from old age, imbecility and dry rot, we are going to have a rest, up comes Mr. Sothern, and doubtless we are be afflicted with *his* lingering eternity of a farewell. One of these old mildewed former favorites is harder to shake off than the consumption. The great McKean Buchanan having been driven from all the world's great cities, many years ago, still keeps up a pitiless persecution of the provinces, rattling with undiminished fury before audiences composed of one sad manager, one malignant reporter, and a Sheriff waiting to collect the license, and still pushes his crusade from village to village, strewing his disastrous wake with the corpses of country theatres. Edwin Forrest hung on to metropolitan farewells till there was nobody left before the footlights to say good-bye to, and then adjourned to Jersey to farewell those unoffending foreigners to death. Kean farewelled until his teeth were all gone and he had nothing left to hang on by. Charlotte Cushman kept it up until Washington's body-servant had forgotten the date of her first farewell. The cities did have only those tiresome Florences and Williams left, but this Sothern has begun this dismal torture of "retiring from the stage." Gag him! [*Mark Twain.*

Private letters dated Madrid, from an authoritive source, states that Sickles offered the United States as a mediator between Spain and Cuba. The proposition being the abolition of slavery, and the payment to Spain by Cubans for forts, public buildings, etc. While Spain does not reject mediation, there are some obstacles in the way of accommodation.

The impression among many Spanish statesmen is, however, that Cuba will eventually pass from Spanish control. It is stated that Spain demands, as preliminary, that the Cubans lay down their arms, which it is ascertained the Cubans will not do, having no guarantee of protection from the volunteers, who, it is stated, aim at absolute control of the Island, and have secret organizations to that end.

A special to the Times makes Grant say to the Senter delegation from Tennessee, that he recognized Mr. Senter as a Republican, and considered that the Republicans who voted for him still belong to the Republican party; and, in addition, that he would not remove from office any Federal official in the State for having thrown the weight of his position and personal influence against Mr. Stokes. The President, in conclusion, recommended them to harmonize and put an end to their difficulties, personal and political, by a general amnesty.

The Monthly Treasury Statement —A Decrease in the Public Debt to be Shown by the Non-Payment of Pensions—Mr. Boutwell Preparing his Report—The Income Tax to be Retained—An Attack on his Predecessors Probable—A Conspiracy Against Chase and Fessenden — Canby and the Virginia Legislature.

WASHINGTON, August 30.—The forthcoming monthly statement of the national finances is to be tampered with as have been their predecessors for the past five months. I learn that the payment of pensions is to be delayed again. Somebody has said that "figures can't lie." In the hands of an ingenious financial minister this aphorism is shown to be very shallow and unworthy of further belief. It is even surmised that by refusing to pay honest debts, and delaying the benefactions of the country, a clear "reduction" of the public indebtedness will be shown upon paper.

It is understood that his Excellency, Mr. Boutwell, is even now preparing his "report," the data being sent from the Treasury over the wires to his home in Massachusetts. I take it that only the heavy business of the report is in course of preparation—such as suggestions as to the means of prospective resumption of specie payments—the true mode of raising revenue, and the like. He will vehemently (his friends say) insist upon retaining the income tax by proposing to renew the act levying it, which expires next year. But he will more especially spread himself in attempting to prove that we have never before had a Secretary of the Treasury worthy the name; that Hamilton, Gallatin, and even Chase and Fessenden were merely so many asses compared to himself. I hear he will particularly attack the present Chief Justice, and, by implication, his immediate successor. There is a conspiracy of unequalled virulence against these men, and if Fessenden is not defeated this winter in Maine, it will not be the fault of Boutwell and Sumner.

I learn from a good source, that the proposition of General Canby that the members of the Legislature of Virginia, who "can not take the oath" shall resign, will be rejected. It is manifest that this *ruse* is merely to gain time, and is the best evidence that the renowned hero is himself doubtful of his power to expel such representatives. What will be gained by the new degradation? Can any one tell? In any event, the whole question of Virginia "reconstruction" will be reviewed by Congress! When will the people of the South understand that disgraceful voluntary submissions to the monstrous demands of the Radical faction are but preludes to other exactions still more onerous and still more humiliating?—*Special Cor., Baltimore Gazette.*

PROGRESSING.—The revival at Sharon Baptist Church, near this city, is progressing. On last Sabbath, fourteen persons were baptized.

REVIVAL.—The revival in the Stone Mountain Baptist Church, is still progressing with gratifying results. Over twenty have been added to the Church.

REAL ESTATE SALES.—Yesterday evening, Col. Adair sold the Enright property to Judge Daniel Pittman, for $1,445, and the Goitsnoven house for $2 000, to Dr. S. H. Stout.

NEW IMPORTATION.—We saw a lot of washing machines that arrived here yesterday from the car works of Messrs. Raoul, Son & Wadley, of Louisiana.

OFF FOR CALIFORNIA.—We learn that Col. L. J. Glenn will leave on to-morrow for California, to attend the session of the National Lodge of Odd Fellows.

DEKALB SUPERIOR COURT.—DeKalb Superior Court commences on Monday next, 6th inst. One murder case and one action for false imprisonment will be among the cases for trial at this term.

A SHAME.—It is a shame to all the Railroads centering here, that they do not at once commence the erection of a Union Passenger Depot, that will reflect credit upon themselves and the city. Why delay the work?

WEDDING.—On Wednesday night, John H Howard was married to Miss Annie C. Robson, at the residence of Col. R. A. Alston, in DeKalb county, by Rev. C. W. Thomas. We congratulate the couple, and wish them unalloyed happiness and continued prosperity.

LAMP EXPLOSIONS.—Recently, there have been four explosions of kerosene lamps in this city, attended, however, with little or no injury to life or property. In handling them great care is necessary.

THROUGH PASSENGERS.—Thirty through passengers from New York, via Charleston and Augusta, passed through here yesterday, to the West, and about thirty-five the day previous.

S. K. JOHNSON.—S. K. Johnson, the popular and energetic Superintendent of the Georgia Railroad, passed through Atlanta yesterday, on a brief visit to Tennessee. The object of his visit has nothing to do with transporting males!

PERSONAL.—Hon. Nathan Bass and A. W. Reese, of Macon, were the guests of the United States Hotel yesterday.

Capt. James A. Simpson, of Macon, one of the best detective officers in the United States, was in the city yesterday.

A SNAKE STORY.—One day this week, we are informed, that a Mr. Camp, of DeKalb county, saw in his yard what he thought to be a large rattlesnake's pilot, and shot it. Upon going up to it, he discovered *twenty-one* snakes, closely interlaced together. What variety of the snake tribe they belonged to, he did not know.

A GOOD APPOINTMENT.—We learn that Capt. James A. Simpson, of Macon, was, on yesterday, duly qualified as Deputy United States Marshal for that city, and will at once enter upon the discharge of the duties of his position. He will do his duty, promptly and fearlessly. As an officer and a gentlemen, few rank higher in Middle Georgia.

PREMIUMS FOR COTTON.—Messrs. Hardeman & Sparks, of Macon, offer, in addition to the premiums offered by the Executive Committee of the State Fair, $60 for the best ten bales of upland cotton; $30 for the best five, and $10 for the best single bale; $10 for the best five bales of long staple from green seed, and $10 for the best single bale.

SUSPENDED.—We learn that seven or eight hands employed on the State Road have been suspended for two weeks. They are all Democrats, and they have been assured that the time will be divided between them and the Rads, and that at the expiration of the two weeks, seven or eight Rads will be suspended for a like time. We shall see.

BAD MEAL.—Complaints have been made to us that some of the meal vended in this city is of an unwholesome character. A physician relates to us that of his own knowledge he knows of an instance, where bread cooked from it caused those who partook of it, to have nausea at the stomach, and a dog who eat some of it, to vomit We see but one way to remedy this, and that is, for the persons who are so unfortunate as to get it, to carry it back to the party vending, and let him trace out where it came from. Our merchants are often imposed upon. It is to their interest to vend nothing but sound wholesome meal.

THE CUBAN FEVER.—We noticed a few days since, the departure of a number of youths for Cuba. Yesterday, we learned that twenty five youths had been arrested at Fort Gaines, while seeking a route to Cuba. We are not advised as to who the parties were, or where from The Macon Telegraph announces the arrest of a young man in that city, on a telegram from his brother in this city, and of his subsequent release by the Ordinary, on a writ of *habeas corpus*, because the telegrrm was signed by his brother and not his father.

The Cuban fever is raging through the country, and the government officials seem anxious to effect a cure by throwing "cold water" on it.

THE RURAL SOUTHERNER.—We are in receipt of the September number of this popular agricultural journal. In its table of contents, we notice an excellent article on "Grasses," by R. M Herndon, of Decatur. P. P. Pease, of Atlanta, contributes some valuable receipts for the cure of murrain in cattle, and warts on cows. Fred Deckner, one of the skillful, practical gardners of the Gate City, gives some practical suggestions concerning the application of manures in hills and broadcast. Sinclair treats of the proper breed of hogs. In the article, "A New Resource," or fish culture, we recognise the tracings of an accomplished pen. Hon. B. C. Yancey gives some valuable facts concerning his Coosa River place. "Buying fruit trees from Northern peddlers," containing valuable information for the people at large, is worth the price of a year's subscription to the *Southerner*. Send on your dollar for one year's subscription to S. A. Echols, Esq., Atlanta. It is now published monthly, but we see no reason why it should not be published weekly.

LEAKS IN THE TREASURY.—A gentleman who recently held a responsible position in the Treasury Department, is making some nice developments concerning the conduct of that department. He charges that the Treasury Department has redeemed $10,000 worth of spurious 7-30 notes; millions of stolen 5 20s and 7-30s; thousands of stolen registered bonds. This gentleman states that he does not believe that Turner, the late negro Post-master at Macon, is innocent, but that Turner was a constant visitor at Schureman's, and probably obtained from Schureman the spurious money, knowing its character, and with the intention to put it upon the public. The money was stolen from the Treasury Department by Schureman, and the signatures of the bank officers forged thereto by him. This gentleman uses the following explicit language: "I am satisfied from Turner's surroundings in Washington that the money was obtained by him with criminal intent, he knowing the same to have been stolen, and the signatures to have been forged by his friend, Schureman." We trust that he will continue to show up the malfeasance of the present officials of the Treasury Department, and let the people know their misdeeds.

JEFFERSON DAVIS—*His Visit to Glasgow.* This gentlemen is the lion of Glasgow and its vicinity just now, himself and party having established themselves in that city, and made several excursions in the neighborhood. On Wednesday, *en route* to Glasgow, they passed through Dunfermline, and visited the Abbey Church and ruins. Mr. Davis then paid a visit to Stirling, and left for Callander in the evening. The news soon spread that the ex-President was in the town, and as he left per train in the evening three hearty cheers were given by the large concourse of people congregated on the platform. Mr. Davis afterwards paid a visit to Dollar. At Glasgow he visited the Exchange, where, in expectation of a visit, there was a crowded attendance. The assemblage opened a passage in the center of the hall, up which Mr. Davis walked, and at the end of the room entered his name in the visitors' book. On leaving the building Mr. Davis was loudly cheered.—*London Standard.*

THE FICKEN HOUSE.—The Ficken House, under the able management of Mr. and Mrs. Archer, is growing more and more in popular esteem. Being conveniently situated near business, on Peachtree street, and sparing no pains to render guests comfortable, it offers fine inducements. With excellent fare, moderate terms, and kind treatment, they expect to merit their share of public patronage.

WINSHIP & BROTHER.—We direct special attention to the advertisement of Winship & Brother, in another column. They succeed J. Winship & Co., as Founders and Machinists. This firm are prepared to manufacture Mill Machinery of all kinds, Winship and Russell's and Brooks' Improved Patent Cotton and Hay Presses, Gin Gearing from 8 to 12 feet, Horse Powers, Treshing Machines, Cane Mills, Plows, etc., etc. From the facilities and experience enjoyed by this firm, they are eminently qualified to do good work on short notice. We cheerfully recommend them to the public.

CLOTHING AT WHOLESALE.—Messrs. R. P. S. Kimbro & Co., have opened at the old stand of Moore & Marsh, on Decatur street, one of the largest stocks of Ready-made Clothing ever offered in the South. They propose only to do a wholesale jobbing business, and being associated with one of the largest manufacturing establishments in Philadelphia, they are prepared to sell goods at such low figures as to save to purchasers the cost of freight and fare to New York or Philadelphia. In other words, they are enabled to sell jobbing lots at Philadelphia and New York prices. We have inspected their stock of Clothing and Furnishing Goods for Gents' wear, and find it full, complete and of the best qualities.

Mr. Kimbro has been engaged in the clothing business for thirty years, and bears the reputation of an upright and energetic merchant.

Mr. L. S. Salmons, so well known in this section, as a thorough-going business man, is connected with this house, and will be glad to see his old friends.

PERSONAL.—Mr. Edmund H. Abrahams, lately employed by the firm of I. L. Falk & Co., clothiers of this city, leaves to-day for Atlanta, for the purpose of establishing a branch of this extensive concern in that place. Mr. Abrahams has long been identified with the clothing business in this city, and is a young man of undoubted integrity, and has done much, by his strict business habits, to establish the reputation of the present house now in this place. The adoption of the one price system has proved a success here, and we have no doubt if introduced into the new establishment at Atlanta, will prove equally successful. We recommend Mr. Abrahams, and his house, to the people of that city, confident that they will find him truly a man of business.—*Savannah Republican.*

We cordially welcome Mr. Abrahams to Atlanta, and endorse the "one price" system as a most excellent one.

IMPORTANT DISCOVERY.—Galileo invented the telescope; Columbus discovered a new world, and to Professor Morse is due the credit of teaching the lightning how to talk, but it was reserved to Dr. J. Bradfield to penetrate the mystic depths of science, and drag therefrom the wonder of our century. The victory has been won, and woman is free.

The sale of Dr. J. Bradfield's Female Regulator is unprecedented in the history of popular remedies, and thousands of certificates are coming in from grateful women, throughout the Union, attesting its powers and applauding its untold benefits to their sex. dtf

PHYSICIANS USE THEM IN THEIR PRACTICE.—It is almost universally the case that Physicians condemn what are generally known as "Patent Medicines." Although DR. TUTT'S LIVER PILL IS NOT A PATENT MEDICINE, yet its composition (the result of years of study) is known only to himself, and so palpable are their valuable curative properties, that very many of the first Physicians in the South and West have adopted them in their practice, and recommend them to their patients.

L. H. BRADFIELD'S COLUMN.

DR. J. BRADFIELD'S FEMALE REGULATOR, Woman's Best Friend

THIS valuable Medicine is prepared for WOMEN exclusively, and to be used by WOMEN only. It is adapted especially to those cases where the WOMB is disordered, and will cure any irregularity in the "menses," except in such cases as require a surgical operation. As these last are very rare, the FEMALE REGULATOR is of almost universal application. In a sudden check of the "monthly courses" from COLD, trouble of mind or like cause, it acts like a charm, by RESTORING THE DISCHARGE IN EVERY INSTANCE, thus relieving the fever, headache, pain in the small of the back and "lower stomach," flushes of heat about the face, chilly sensations, burning of the eyelids and general restlessness. Taken in time, all these symptoms pass away immediately, without injury to the constitution. Frequently, however, the proper remedy is not applied in time, the disease becomes chronic, and the foundation laid for numberless evils to the constitution of the woman. The next "turn" comes around and there is no "show," or perhaps the "whites" will appear. There will be some uneasiness about the womb, but very little or none of the natural fluid escaping. The complexion becomes sallow, bowels, swollen, a sort of greenish caste about the face, constant dull aching pains in the head, weight in the lower stomach and back, with or without whites, palpitations of the heart, pallor, exhaustion, indigestion, weariness, langour, aching across the loins, loss of appetite, pain in left breast, tightness across the chest, cough and giddiness. If still allowed to go on, "green sickness" will be fully developed—the headache becomes severe, with loss of memory, diminishing sensibility, SICK STOMACH, dyspepsia no relish for food, loss of flesh, increased fluttering of the heart SWELLING OF THE FEET, legs and body and occasional spitting of blood. The slightest effort causes HURRIED BREATHING, almost SUFFOCATION. The skin is flabby and a "doughy feel." This is a sad picture, but it is the condition of thousands of women between the ages of 15 and 45, who are brought to the verge of the grave by ignorance or neglect to take the proper remedy To all who are afflicted with any of the symptoms above mentioned, in connection with an irregularity of the "monthly sickness," we earnestly say TAKE DR. J. BRADFIELD'S FEMALE REGULATOR. A few ounces taken, you will at once experience its benefits, and with a little patience you will be fully restored to health.

This remedy has been extensively used for upwards of twenty years by many of the most experienced and successful Physicians of Georgia.

We repeat, that Dr. J. BRADFIELD'S FEMALE REGULATOR is prepared for WOMEN and to be used by Women only.

A trial is all we ask.

ATLANTA, Ga., December 29th, 1868.

Dr. J. BRADFIELD—Dear Sir: I take pleasure in stating that some time previous to the late war, I used, with the utmost success, on a servant girl, your FEMALE REGULATOR, prepared then at Bradfield's Drug Store, West Point, Ga. She had been suffering severely from suppressed menstruation, and this Medicine soon restored her to health. She is, to-day, living in Atlanta, sound and well.

I will state, further, that I know of its being used, with equal success, on a servant girl of my brother-in law, Professor Rutherford, of Athens, Ga. This woman had, I think, been diseased for six years. She was a house servant, and seemed cured, up to the time of "freedom," I do not hesitate to indorse your preparation for the purposes for which you recommend it.
Yours truly, JNO. C. WHITNER.

STATE OF GEORGIA, TROUP COUNTY.

This is to certify that I have examined the recipe of Dr. Joseph Bradfield, of this county, and, as a medical man, pronounce it to be a combination of Medicines of great merit in the treatment of all the diseases of females for which he recommends it. WM. P. BEASLEY, M. D.
This December 21st, 1868.

MOUNTVILLE, 1868.

DR. J. BRADFIELD—Dear Sir: I have much pleasure in saying I have witnessed the most decided and happy effects of your Female Regulator in this neighborhood. WM. H. FINCHEN.

Dr. J. BRADFIELD—Dear Sir: I have repeatedly used, in my family, your Female Regulator, and have, in every case, met with complete success

PURIFYING PILLS.

THE excellent Remedies of O. S. Prophitt, M. D., need no recommendation—their well known power in removing the diseases peculiar to our Southern climate having already established for them an enviable reputation in Georgia and the adjoining States. As the majority of persons living in the South are predisposed to disease of the Liver, it is granted by all intelligent physicians that most of the pains and aches of our people are due to organic or functional derangement of that important organ. Prophitt's Liver Medicine and Anti-Billous Pills strike directly at the root of the evil. They cure the Liver which, in nine cases out of ten, is at the bottom of the Coughs, Dyspepsia, Colic, Sick Headache, Rheumatism, Constipation, Menstrual Obstructions, etc., so common among our people. Earache, Toothache, Acute Rheumatism, Neuralgia and and bodily pains of every kind flee before

DR. HUNTER.

CONTINUES to treat all private diseases, Syphilis in all its forms, Gonorrhea, Gleet, Stricture, Orchitis, and all urinary diseases, and the effects of mercury are completely eradicated; spermatorrhea or Seminal Weakness, resulting from self-abuse or other causes, and which produces some of the following effects: as blotches, bodily weakness, indigestion, constipation, aversion to society, unmanliness, dread of future events, loss of memory, indolence, nocturnal emissions, and finally prostration of the vital powers, can be fully restored to health. Persons afflicted with this, or any other delicate, intricate, or long standing constitutional complaint, should give the Doctor a trial. He never fails.

The Doctor publishes a medical circular that gives a full exposition of venereal and private diseases, that can be had free at his office, or by mail for one stamp. It gives a clear delineation of all the diseases and conditions resulting from the infringement of the moral laws, excesses, indulgences, exposures and imprudences in married or single life Every sentence contains instruction to the afflicted, and enabling them to determine the precise nature of their complaints.

The establishment, comprising ten ample rooms is central. When it is not convenient to visit the city, the Doctor's opinion can be obtained by giving a written statement of the case, and medicines can be forwarded by mail or express. In some instances, however, a personal examination is absolutely necessary, while in others, daily personal attention is required, and for the accommodation of such patients there are apartments connected with the office that are provided with every requisite that is calculated to promote recovery, including medicated vapor baths. All prescriptions are prepared in the Doctor's own Laboratory, under his personal supervision. Medical pamphlet at office free or by mail for two stamps No matter who have failed, read what he says. SIMMONS' LIVER REGULATOR OR

Medicine for Dyspepsia, Headache Jaundice, Costiveness, Camp Dysentery, Sick Headache, Chronic Diarrhoea, Affections of the Bladder and Kidneys, Fever, Nervousness, Chills, Diseases of the Skin, Impurity of the Blood Melancholy or Depression of Spirits

Most of the ailments here enumerated have their origin in a diseased liver, which is the most prevalent affection in this country, and as in many cases the patient is not within the reach of a physician, it requires that some remedy should be provided that would not in the least impair the constitution, and yet be active and safe. That such is the character of the SIMMONS REGULATOR there can be no doubt, which the testimony of hundreds will establish.

SYMPTOMS OF A DISEASED

LIVER.

Pain in the side. Sometimes the pain is felt under the shoulder blade is mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness, bowels in general are costive, sometimes alternating with lax; the head is troubled with pain, accompanied with a dull, heavy sensation. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred when few of them existed, yet examination of the body after death has shown the Liver to have been extensively deranged.

It should be used by all persons, old and young, whenever any of the foregoing symptoms appear. It is a purely vegetable compound, is not injurious to the most delicate constitutions, and will keep the liver in healthy action if used properly.

Persons living in unhealthy localities may avoid all bilious attacks by taking a dose occasionally to keep the liver in healthy action.

Regulator

For children complaining of colic, headache, or sick stomach a teaspoonful or more will give relief. Children, as well as adults, eat sometimes too much supper or eat something which does not digest well, producing sour stomach, heart-burn, or restlessness; a good dose will give relief. This applies to persons of all ages.

Many persons, from eating too much, are restless at night, or in day time fidgety, wool-gathering, can't understand what they read, can't keep their thoughts on any one subject so as to reason well, or become fretful. One or two tablespoonful will give relief.

Jaundice.—Take enough Regulator after eating each meal to produce one full action from the bowels every day.

Pregnant ladies will find sure relief from their headache, cos iveness, swimming in the head, colic, sour stomach, restlessness, etc., etc.

THE DAILY CONSTITUTION.

ATLANTA, GEORGIA, SEPTEMBER 2.

SEPTEMBER.

From the hazy skies of the Northland,
Proud, breezy September has stepped;
And up through the woodland and ryeland
And over the meadow and glenland,
The goddess all-early has crept.

You trace her wherever you wander,
In valley, in dingle, or wood,
The oak, her red colors are flying;
While Summer's gay banner is lying
Where the queenly new comer stood.

Where she stood as she deftly painted
The wild grape a purplish blue;
And limned the reflection of blushes,
In the streamlet that dashes and rushes,
Where once meek-eyed violets grew.

Where the wheat fields rolled their round billows
Of softest and tenderest green,
She shook the bright gold of her tresses,
And touched by her gentle caresses,
They put on a lovelier sheen.

The sunset is softer and brighter
Than when the hot summer was here;
The winds tell a prettier story;
And I think there's an odd, but new glory,
By the roadside meadow and mere.

The Press Excursion—What The Press Say About It.

We doubted the authority of Mr. Superintendent to make such an expenditure of the State's money, but as the object seemed commendable, expressed a willingness to join the excursion. But when the party is formed, instead of a laboratory for a chemist and geologist, and the scientific apparatus and appliances one would expect to see accompanying such a party of excursionists, gotten up upon such an invitation, we find the old instruments of political intrigue and the laboratory of party jugglery. For a crucible, Mr. Hulbert substitutes a bottle of Atlanta whisky; for acids and alkalies, he has arranged in bar-room style a regiment of lemons and a battalion of soda water bottles. For a chemist, he has a political trickster along, and for a geologist, a political mountebank.

We bid good morning to this crowd, and leave them with the wonder that with all his sharpness, Hulbert could not better hide the trick, until he had fairly compromised his guests. Some of them went along anyhow, and we find old Expediency, of Macon, prefacing his analysis of Mr. Cooper's ores by a repentant whine over his connection with the rebellion. Good liquor that of Hulbert's for the purpose.

Well, all this humbug and party scheme is to be paid for by the people of Georgia, and so we have another reason why the State Road now pays twenty-five thousand dollars per month into the Treasury, instead of forty thousand, which it returned under the administration of Mr. Wallace.

The whole thing has been devised with some other object in view than the one expressed in the letter of invitation to the press, and we shall watch the future editorials of some of our contemporaries to see what its results has been upon them.—*Eatonton Press and Messenger.*

We should not attribute bad motives to Col. Hulbert in getting up this excursion, because good ones are patent and more than ample. The mineral interests of Georgia, when properly developed, will be second to no other, not even the cotton interest of the State. What better plan could Col. H. possibly adopt to bring to light these half-concealed sources of wealth, than by calling into exercise the powers of the "fourth estate" in regard to them.

The editors and publishers who accepted his invitation, did so without the slightest feeling of obligation to him personally, or even to the State government—that pays the entire expenses, except the local hospitalities along the line of travel—but they did so with the honest expectation of returning to the commonwealth a *quid pro quo* by such full and earnest description of the mineral deposits as would induce foreign and domestic capital to engage in their development, and thus, by advertising, make more than ample restoration to the State for this judicious outlay. Over one-half of the leading papers of the State were either unrepresented or else represented by others than the principal editors, thus proving that the "free excursion" was not much hankered after. Most of those who joined the party did so from a high sense of duty and at a pecuniary sacrifice. They had some recreation, much weariness, and considerable work, in the way of correspondence on the trip, and most of them will arrive at home very little recruited from this hurried excursion.—*Rome Courier.*

Among those wanting to gladden the heart and charm the ear, are the accomplished Gardener, the bald-headed but intellectual Bullock, the gifted Alexander and the veteran Jones, of the Chronicle and Sentinel.

We have been favored with the presence of the Governor, who, with Superintendent Hulbert, have conspired to render the trip as delightful as can be. Your correspondent having been an original Bullock man, and believing now after trial, as before on faith, that the right man is in the Gubernatorial chair, will not change his views, by favor and hospitality kindly bestowed. [*Newnan Peoples' Defender.*

The Chinese Giant.

Chang is a trifle over nine feet in height. He is only 22 years of age. He is very youthful in appearance; there is not a sign of beard on his face, and he has the look not so much of an overgrown as of a growing boy. His growth has been gradual. His muscular development is good, though not extraordinary. He is strong. He has grown six inches since he came under the management of Mr. Partlett, his business man. Speaking of his brother, Chang, with an amusing display of sheepishness, remarked that his brother had a fine large moustache such as the English now wear (look out for Lester Wallack and Leonard Jerome), but that as yet he had himself no beard at all. His pig-tail, however, was longer than his brother's. This brother is quite stout, while Chang, without being slender, is not at all so. Chang's early life and youth was passed in the cultivation of the tea plant at his father's.

He could not understand our system of electing Presidents. He says China is a much older country than America, but all the potentates of China put together would hardly equal in number the Presidents of America, whose pictures he has been shown in the national portrait gallery in the Museum. Being informed of our political system, and told that he was eligible for office, he avowed himself determined to become a politician as he was heartily tired of the show business. Who knows that some day he may not become the Chairman of the National Democratic General Committee?

KINFOO.

Chang's smaller half is in her nineteenth year, and is as pretty a Chinese girl as we have ever seen. She and Chang grew up together, and when he got so tall she was the only maiden in the village who was not afraid of him. She is about 6 feet 5 inches in height. She is remarkably slender. She is very affable, and strongly inclined to be mischievous. Making faces behind persons' backs, giggling behind her handkerchief when her liege lord addresses her, and daubing your hand with Chang's writing brush, are customs of hers which afford her much amusement. She says that if Chang falls in love with the giantess she will close with the dwarf, Admiral Fiske. She is very shrewd at driving a bargain, as many of those who have patronized her table can doubtless testify.

THE PARTY OF THE CONSTITUTION.—In a recent speech at Knoxville, Andrew Johnson thus foreshadowed the future and exhorted to a high patriotic duty:

"The time is now come when we should consider the elementary principles of our government, and where they are tending. Away with these shallow cries for party! Let us form a party strong enough to save the Constitution and country. Let us rally under the Constitution. Let us know no party animosities engendered in the days gone by."

Mr. Vallandigham has recently given as a reason for his silence in the Gubernatorial contest in Ohio: "I think that we are experiencing a transition in politics, when it is better to keep quiet and look on."

BRAN NEW LETTERS!!

FRESH TESTIMONIALS!

DARBY'S PROPHPLACTIC FLUID!

THE ASTONISHING

Family Medicine!!!

Saved from Death—Read!

MONTGOMERY, ALA., June 23, 1869.

MESSRS. J. DARBY & Co., 161 William street, New York—*Gents:* Yours, of the 23d, is before me and has attention. It gives me pleasure to say, that my *belief* is, that your "Fluid," under the supervision of a kind Providence, *saved the life of my youngest child,* some six years ago. The child being wasted to a skeleton, by the effects of teething, and an affection of the bowels therewith. *I had never seen any one reduced so low to recover.*

"Physic" had been tried in vain, until the Physicians stated it was useless. A friend recommended your "Fluid," or ozone, which he stated was one of the component parts of it. I did so, and the *effect was like magic,* plainly discernable *in one hour,* in its good effects, producing quiet and sleep almost at once, where irritation and sleepless restlessness had previously possessed the child to nearly entire exhaustion.

I at first administeredit in a small way, 2 and 3 drops in a spoonful of water, and increased it to 6 and 10 drops. It completely checked the bowels, and had the happiest effect, the child rapidly recovering.

I have tried your "Fluid," on animals, with the same effect; both horses and cows, mingling more or less in water, and letting them drink.

I have no hesitation in saying, I believe it a specific for Chronic Diarrhœa, or any violent affection of the bowels.

I would not be without it in my family, under any consideration.

Yours, truly, WILLIAM FOWLER.

Mr. Fowler is a member of the celebrated Banking House of Fowler & Somerville, Montgomery, Alabama.

AND AGAIN!

Read the following letter from Mr. Frank Saunders, a well-known citizen, and brother-in-law of the beloved Bishop Paine, of the Methodist Episcopal Church, South:

189 BROADWAY, NEW YORK, July 29, 1869.

MESSRS. J. DARBY & Co., 161 WILLIAM STREET, NEW YORK—*Gents:* About the 10th of June last, one of my children was taken with Scarlet Fever, in its most malignant form, and as soon as I could I procured your valuable disinfectant, "Darby's Prophylactic Fluid." Although it was several days after the appearance of the disease before I began using the Fluid, still, by a free use of it, the disease was not only confined to the one case, but the malignity of that case somewhat mitigated.

During the use of the Fluid, as a disinfectant, in my family it was also, tried in a case of headache, and one of toothache, the results in each case being instantaneous relief. It was afterwards tried in a case of Erysipelas, with almost equal success.

It is due to the merits of this compound, also, to state, that the case of Erysipelas in question, being located in the feet, the Fluid, in its application, was brought in frequent contact with a troublesome corn, on one of the feet, to the utter discomfiture of said corn; for, upon subsequent examination it had disappeared, and though it was sought for diligently, it could not be found.

I hand you this, hoping it may be the means of inducing others of earth's poor sufferers, to test for themselves, as I did, the great merits of this great remedy.

Very respectfully, yours,
FRANK SAUNDERS.

Never was a medicine so universally esteemed and extolled. It never fails. It may be depended on.

"THE UTLEY COTTON PRESS."

A new invention of power whereby all friction is overcome. The simplicity, economy and durability of this Press astonishes all who see it, and the more so, that a power so simple should so long have been unappropriated. The strain is wholly upon two (2) Iron Bars 1¼ inches square, operating on those bars as if two men were pulling at each end in contrary direction, which will sustain a strain of 190,000 pounds each. With this Press two men can do all the packing or pressing of a 500 pound bale inside of eight minutes, and if need be, one man can operate, only requiring more time. This Press will not occupy more space than a Flake, and can be placed under the Gin and receive the Cotton direct from the Gin, thus doing away with Lint Rooms, and can be readily taken down and transported as it is simple and light. We can supply these Presses cheaper than any yet offered. Will send circulars to any desiring, and would advise all wanting Presses to withhold buying until they examine this. We will, at an early day, have one on exhibition in Atlanta, when it can be seen.

R. P. GLENN, Agent.

R. P. GLENN, ESQ.—*Dear Sir:* I am so much pleased with the style, make and operation of the Utley Cotton Press, that I have concluded to order one of them from you for my plantation on the Mississippi River.

I do this, notwithstanding I have on my place a large and expensive 10 inch Iron Screw Press, which cost upwards of $300 before the war. Believing that the saving of time and space, to say nothing of its superior baling qualities, and by reason of its great power, will more than repay its cost over the one now in use. I do not hesitate to recommend this Press to all who may require one.

Very Respectfully,
A. J. HOLMES.
